EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gregory P. Sitrick on 03/28/08.

In claim 21, line 19, after "interaction" add --by advancing from one object to another object--.

In claim 21, line 19, after "interaction" delete --with one or more selected objects--.

In claim 33, line 20, after "interaction" add --by advancing from one object to another object--.

In claim 33, line 20, after "interaction" delete --with one or more selected objects--.

In claim 45, line 18, after "interaction" add --by advancing from one object to another object--.

In claim 45, line 18, after "interaction" delete --with one or more selected objects--.

Reasons for Allowance

2. Claims 21-49 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 21, 33 and 45, the prior art reference Wolf and Examiner's newly discovered reference Muller fail to teach in response to call agent performing, in association with

said live voice communication with said calling party, a prescribed interaction by advancing cursor from one object to another object of a form displayed on computer workstation, automatically triggering one or more actions including automatic generation of said voice selection signal to cause automatic playback of said pre-recorded message to the calling party during said call. Wolf teaches that the agent enters information into a form displayed on computer in response to a customer [i.e., caller] inquiry (see col.3, lines 44-62) whereas Muller teaches an operator [i.e., agent] activates a replayer to play back a previously recorded message to an incoming caller (col.6, lines 26-43). There is no teaching or motivation in both of the references to teach in response to the call agent performing an interaction by advancing cursor from one object to another object of a form, automatically triggering one or more actions to cause automatic playback of said pre-recorded message to the calling party during said call.

Since claims 22-32, 34-44 and 46-49 are dependent claims, these claims are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
